Global Ingredients

Beauty is timeless. Beauty is infinite. Beauty is global.

Fenty Skin products are the best of the best, featuring safe, effective ingredients inspired by the world. From Asia and the Caribbean to Africa and Australia, our products define clean beauty by celebrating what our planet has to offer.

Kalahari Melon

This wild watermelon thrives in the dry soil of the Kalahari Desert in Namibia and Botswana. Rich in antioxidants and vitamins, Kalahari melon hydrates the skin for a glossy finish. Add a splash of Kalahari melon to your routine with our **Hydra Vizor Moisturizer**.

Barbados Cherry

Coming to you straight from Rih's home country, Barbados cherry -- also known as acerola -- packs a full punch of vitamin C for a brighter complexion. Find it in our **Fat Water Serum** for a dazzling touch.

Australian Lemon Myrtle

For thousands of years, Aboriginals have used lemon myrtle to heal wounds and ailments. In our **Instant Reset Cream**, the flowering plant works overtime to reduce surface oils and minimize pores for an irresistibly smooth surface.

Persian Silk Tree

Also known as the mimosa, Persian silk trees are native to western Asia and used for their many medicinal properties. The silk-like petals serve as a powerful anti-aging ingredient that swiftly reduces signs of fatigue, puffy eyes, and fine lines. Find this vibrant ingredient in our **Flash Nap Eye Gel**.

Ginkgo Biloba

This Chinese native is one of the oldest living tree species in the world. It's packed with rich antioxidants that help reduce inflammation and clarify the skin. Try our **Total Cleans'r** for a clean, even finish that'll last you all day.
